Committee on Immunology

Chair

- Bana Jabri, Medicine

Professors

- Erin Adams, Biochemistry and Molecular Biology
- Maria Luisa Alegre, Medicine
- John Alverdy, Surgery
- Albert Bendelac, Pathology
- Eugene Chang, Medicine
- Alexander Chervonsky, Pathology
- Anita Chong, Surgery
- Marcus Clark, Medicine
- Aaron Dinner, Chemistry
- Thomas Gajewski, Pathology and Medicine
- Yoav Gilad, Human Genetics
- Tatyana Golovkina, Microbiology
- Chuan He, Chemistry
- Jun Huang, Pritzker School of Molecular Engineering
- Jeffrey Hubbell, Pritzker School of Molecular Engineering
- Bana Jabri, Medicine
- Barbara Kee, Pathology
- Rima McLeod, Surgery
- Cathryn Nagler, Pathology
- Eric Pamer, Medicine
- Glenn Randall, Microbiology
- Anthony Reder, Neurology
- Raymond Roos, Neurology
- Hans Schreiber, Pathology
- Melody Swartz, Pritzker School of Molecular Engineering

Associate Professors

- Luis Barreiro, Medicine
- Aaron Esser-Kahn, Pritzker School of Molecular Engineering
- Justin Kline, Medicine
- Peter Savage, Pathology

Assistant Professors

- Nicolas Chevrier, Pritzker School of Molecular Engineering
- Jueqi Chen, Microbiology
- Roshni Roy Chowdhury, Medicine
- Axel Concepcion, Biochemistry and Molecular Biology
- Daria Esterhazy, Pathology
- Andrew Koh, Pathology
- Yuxuan Miao, Ben May Department for Cancer Research
- Samantha Riesenfeld, Pritzker School of Molecular Engineering
- Nathan Schoettler, Medicine
- Randy Sweis, Medicine
- Joshua Weinstein, Medicine
- David Zemmour, Pathology

The Committee on Immunology offers a graduate program of study leading to the Doctor of Philosophy degree in Immunology. The committee is dedicated to the open exchange of ideas among scholars of all fields, a commitment enhanced by an organizational structure that completely integrates the basic biological sciences.
committee on immunology

with the clinical sciences. This multidisciplinary and integrated approach corresponds well with the reality of
the new biology, where molecular and structural techniques are applied widely and with great success to clinical
problems.

The Committee on Immunology is a member of the Biomedical Sciences Cluster, which also includes
graduate programs from the Committee on Cancer Biology, Committee on Microbiology, and the Committee on
Molecular Metabolism and Nutrition. The four academic units share several common courses, a seminar series
and additional common events for students and faculty within the cluster. The goal of the cluster system is to
courage interdisciplinary interactions among both trainees and faculty, and to allow students flexibility in
designing their particular course of study.

In addition to formal course work, the Committee on Immunology sponsors a weekly seminar series, an
annual retreat where students and faculty present their research, and several focused group meetings.

ADMISSION

Prospective students interested in obtaining the Ph.D. in Immunology should submit an application to the
Biological Sciences Division by December 1st of each year; indicate their cluster of interest as Biomedical Sciences
and select Immunology as their proposed degree program.

THE DEGREE OF DOCTOR OF PHILOSOPHY

Ph.D. requirements include:

- Completion of 9 course credits consisting of basic science, immunology and elective courses.
- A preliminary examination.
- A dissertation based on original research.
- A final thesis examination.
